

11 July 2019

Dear resident,

We are writing to inform you that we will shortly be installing our main site office cabins for both the Leisure Centre project and the School project, these cabins will be our main site office for the duration of the project.

What is happening?

The new site cabins are being delivered to the School project site in three phases over a period of three weeks.

On the first day of each phase we will have a mobile crane arrive on site at 7am, this will be under a plant movement order.

The reason for the delivery being done outside our normal working hours is due to the size of the machinery requiring a 'Plant Movement Order' from the Metropolitan Police. As the plant is an abnormal large load, it requires a police escort and therefore must travel out of peak travel times. The mobile crane will drive onto the site and park up until 8am when it will commence works.

The mobile crane will then remain on site overnight then leave the following night at 7pm, again this will be under a plant movement order.

When?

The first phase of works will start on Tuesday 16 July and be completed by the end of the day on Wednesday 17 July.

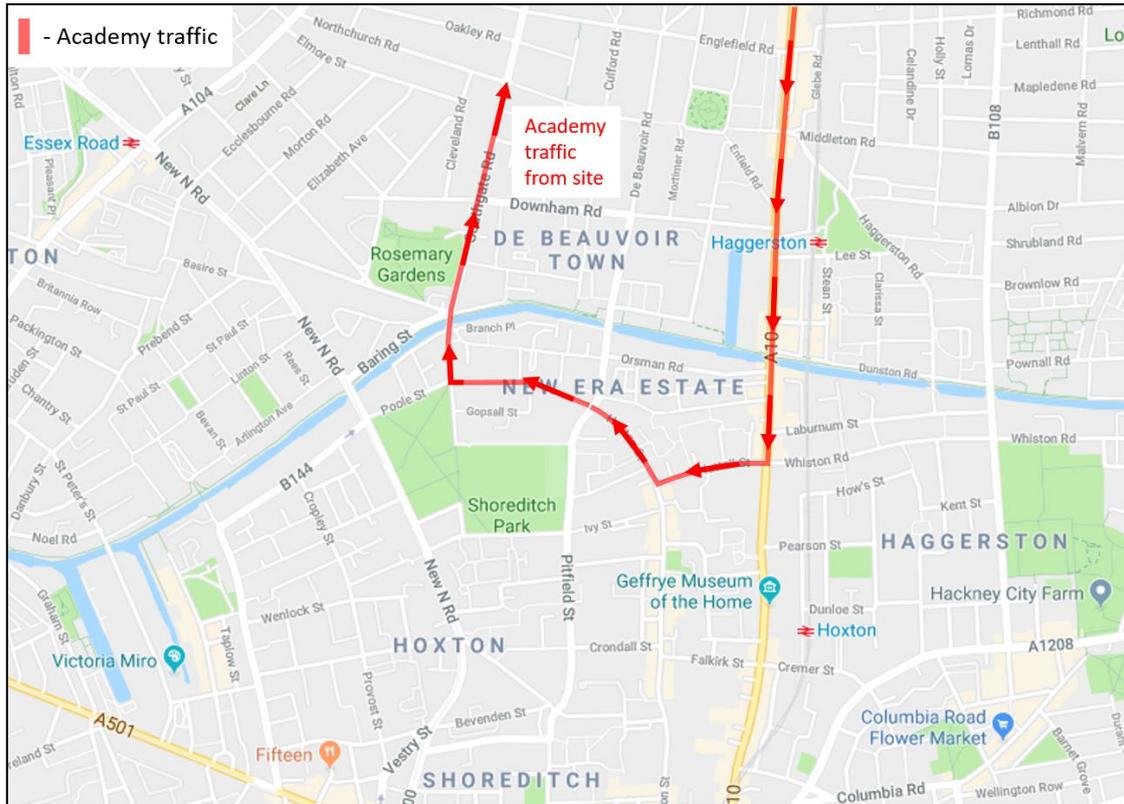

The second phase starts on Tuesday 23 July and will be complete by Wednesday 24 July.

Finally, the third phase starts on Tuesday 30 July, completing by Wednesday 31 July.

On each day the cabins are being delivered, the parking bays on Northport Street will be suspended - this is to give the lorry delivering the cabins sufficient space to manoeuvre. The disabled bays on Gopsall Street will remain in use throughout these works.

Delivery Route

All vehicles involved with these works will follow the agreed Traffic Management route for the School site, this is marked in red.

If you have any question or concerns, please do not hesitate to contact me on 07976 587 990.

We sincerely apologise for any disturbance this may cause you and we will do everything possible to minimise any disruption.

Yours sincerely,

Dalia Islam
